it has become increasingly clear that metaphor needs to be explored in terms of the social and
 discourse context in which it is used especially where the aim is to address real world
 problems the notion of real world metaphor research has been developed to describe this
 important area of investigation this book starts by describing the nature and scope of real
 world metaphor research and then illustrates through 17 detailed mainly empirically based
 studies the different areas it can apply to and different methodologies that can be employed
 research problems are explored in areas such as artificial intelligence language teaching and
 learning reconciliation dialogue university lecture discourse poetry and wine description
 methods include corpus analysis experimentation discourse analysis cross cultural analysis and
 genre analysis in each case the empirical studies refer back to gibbs s opening overview of
 real world research the result is an invaluable and cross referenced collection of papers
 addressing real world problems
